

ShapesManager::deleteShape

ShapesManager::modifyShape

ShapesManager::shapesNot  
Changed

```
graph LR; A[ShapesManager::deleteShape] --> C[ShapesManager::shapesNot Changed]; B[ShapesManager::modifyShape] --> C;
```

The diagram illustrates a state transition or dependency. On the left, two white rectangular boxes with black borders contain the text 'ShapesManager::deleteShape' and 'ShapesManager::modifyShape'. On the right, a gray rectangular box with a black border contains the text 'ShapesManager::shapesNot Changed'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both methods lead to or depend on the 'shapesNot Changed' state.
